

Renovation of public buildings for energy transition

GASLESS project

It was created to offer a **free assistance service to public authorities** interested in energy upgrading of their buildings, promoting the creation of clusters between bodies

WE HAVE THREE GOALS

- ① **Facing the challenge of climate neutrality**
- ② **Accelerating energy transition from natural gas to renewables**
- ③ **Reducing energy costs in the public budget**

GASLESS ADDRESSES PUBLIC BODIES

- ✓ **Upgrade your buildings**
- ✓ **Undertake a path to climate neutrality**
- ✓ **Benefit from direct confrontation with other public bodies**
- ✓ **Strengthen your ability to attract public and private funding**

What do we offer?

WORK PLAN

We work together with other entities, under the coordination of the Region and partners, following a proven process and standardised documentation

TECHNICAL SKILLS

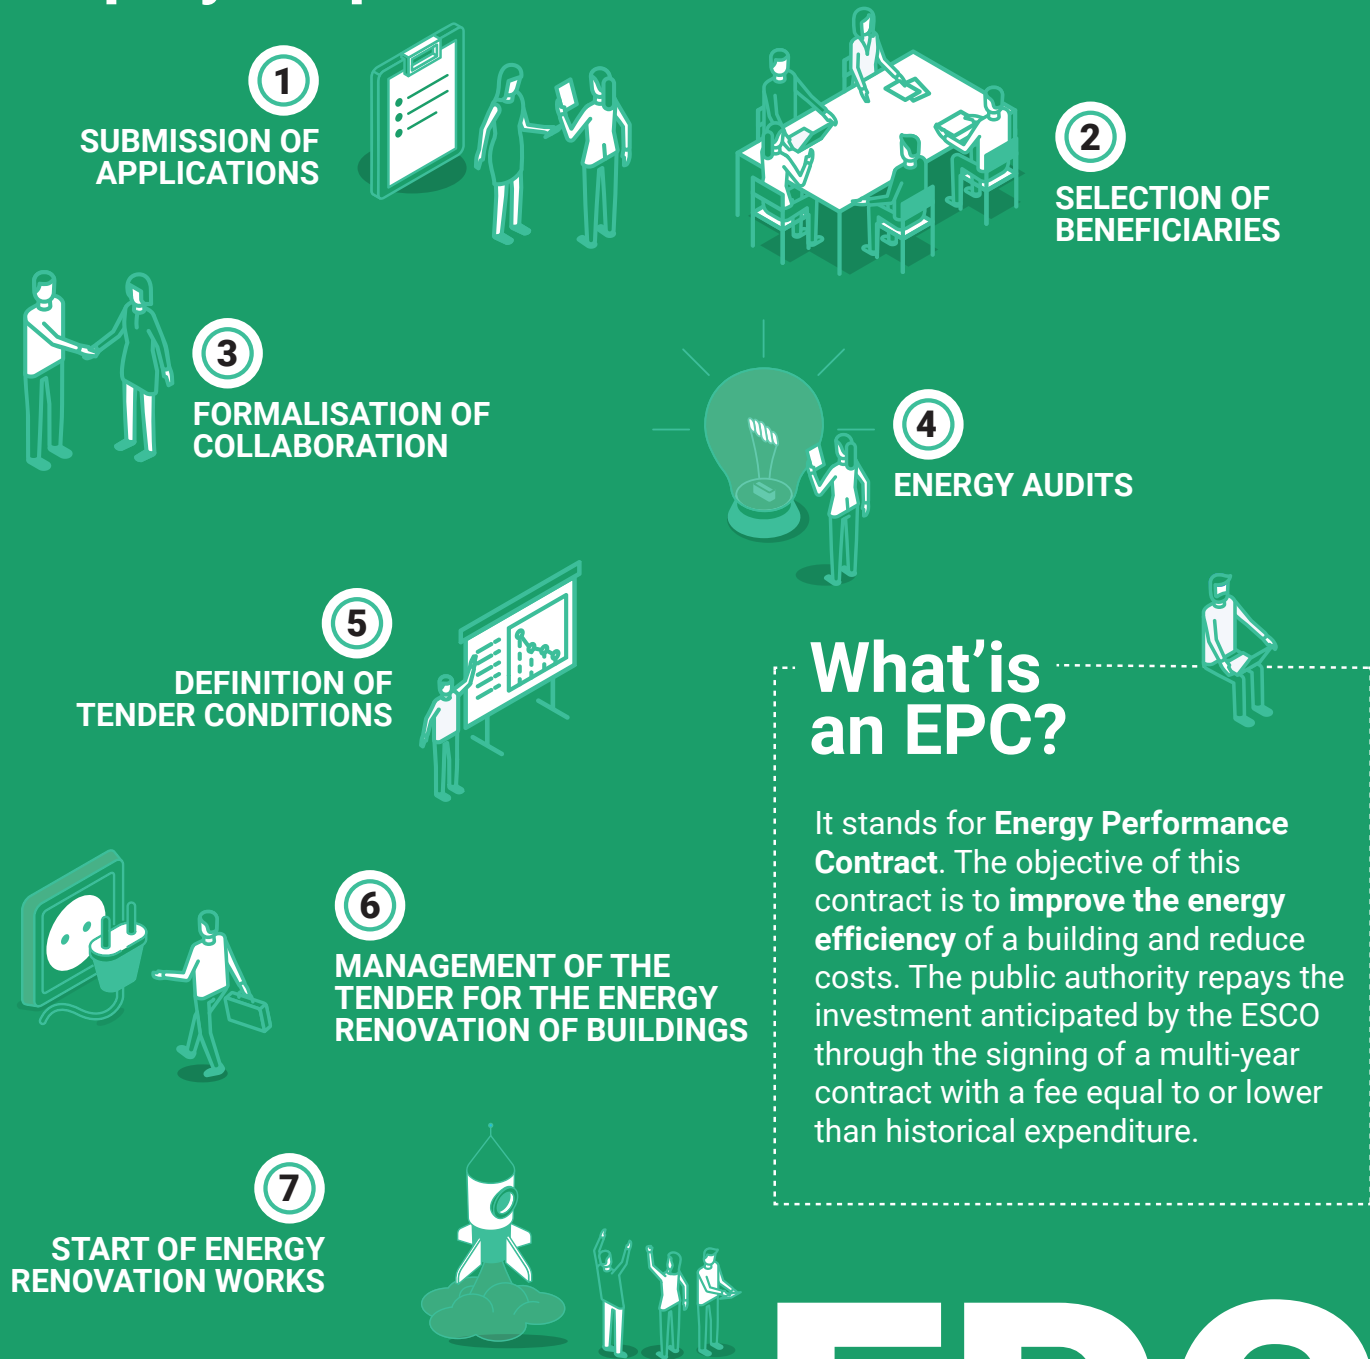

We offer a free energy diagnosis and financial analysis service on buildings to be upgraded

ECONOMIC RESOURCES

Financing based on public-private partnership with Energy Performance Contract (EPC)

The path step by step

What's an EPC?

It stands for **Energy Performance Contract**. The objective of this contract is to **improve the energy efficiency** of a building and reduce costs. The public authority repays the investment anticipated by the ESCO through the signing of a multi-year contract with a fee equal to or lower than historical expenditure.

EPC

Whom to turn to?

If you want to join the project or have some more information, see the [site](#)

project coordination

Collaboration in technical analysis and territorial coordination

Responsible for technical and financial analysis

Management of tenders on behalf of the beneficiaries

Co-funded by the European Union

The GASLESS project is co-funded by the European Union within LIFE programme – Project 101120244. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union. Neither the European Union nor the granting authority can be held responsible for them.
